Health Systems

WATER IS THE BASIS OF OUR FAMILY'S NUTRITION

VIKTOR KORZHENEVSKI

The expert in the field of traditional medicine, balneotherapy. The author of more than 75 inventions and patents. «Ground-to-air» and «air-air» missile launchers', water treatment osmotic systems for military ships designer in the past. «Vikey» clinic, «25 Engineering Systems» complex's owner, the author of patented «New diabetes and obesity treatment method», «New water preparation and purification method», «What to do if you have liver and kidneys?», «Why water treats», «Why we get sick» books, etc.

Continuous
refinement of water
treatment systems
focusing on health
and the body
rights

We transfer to partners in
different countries, a license
agreement for the use of our
patents in joint promotion for
your TM

Customers will always see your
technological advantages in
water purification

New products and new
distribution channels

You can get textbooks,
promotional products, videos
are targeted to your TM

Tests of products are
held in the international
laboratory «Melavo» and
the clinic of metabolism
VIKEY

WORKING WITH US, YOU GET

VERY IMPORTANT ADVANTAGES IN SALES:

REVERSE OSMOSIS SYSTEM STANDART (OPEN TYPE)

The reverse osmosis system is designed for multi-stage post-treatment of tap water from harmful to human health impurities and contaminants. Improves the taste and smell of water.

BENEFITS

- The filter housings are made of European plastic of the highest quality.
- The Vontron Membrane is the leader among reverse osmosis membranes
- Automated control of tightness of joints
- Reduced discharge of water into the drainage

Code	Quantity of stage	Type of membrane	Quantity of stage	Type of faucet	Tank	Pump
RO 5-50 SO	5	50G	1	Single	+	-
RO 6-50 SO	6	50G	1	Twin	+	-
RO 7-50 SO	7	50G	1	Twin	+	-
RO 5-50 SOP	5	50G	1	Single	+	+
RO 6-50 SOP	6	50G	1	Twin	+	+
RO 7-50 SOP	7	50G	1	Twin	+	+
RO 8-50 SOP	8	50G	3	Single	-	+

SMART REVERSE OSMOSIS SYSTEM (OPEN TYPE)

Smart reverse osmosis systems are designed for multi-stage purification of tap water from 99.98% of pollutants while increasing the pH of purified water and producing living water with minus ORP.

BENEFITS

- Primary purification from bacteria using an eco-glycine cartridge
- Post-filter Vital Block - lowers the ORP of water to minus values
- Increased membrane service due to the use of Vital Mix technology in prefiltration

Code	Quantity of stage	Type of membrane	Quantity of stage	Type of faucet	Tank	Pump
RO 5-50 SMO	6	75G	1	Single	+	-
RO 6-50 SMO	7	75G	1	Twin	+	-
RO 7-50 SMO	8	75G	1	Twin	+	-
RO 5-50 SMOP	6	75G	1	Single	+	+
RO 6-50 SMOP	7	75G	1	Twin	+	+
RO 7-50 SMOP	8	75G	1	Twin	+	+

UNDER SINK REVERSE OSMOSIS SYSTEM STANDART (BOX TYPE)

The reverse osmosis system is designed for multi-stage post-water from harmful for human health impurities and contaminants. Improves the taste and the smell of water.

BENEFITS

- The whole system is placed in a stylish metal case.
- Membrane Vontron is the leader among the reverse osmosis membranes.
- Automated control of tightness of joints.
- Reduced discharge of water into the drainage.

Code	Quantity of stage	Type of membrane	Quantity of stage	Type of faucet	Tank	Pump
RO 5-50 SB-U	5	75G	1	Single	+	-
RO 6-50 SB-U	6	75G	1	Twin	+	-
RO 7-50 SB-U	7	75G	1	Twin	+	-
RO 5-50 SBP-U	5	75G	1	Single	+	+
RO 6-50 SBP-U	6	75G	1	Twin	+	+
RO 7-50 SBP-U	7	75G	1	Twin	+	+
RO 8-50 SBP-U	8	75G	3	Single	-	+

UNDER SINK SMART REVERSE OSMOSIS SYSTEM (BOX TYPE)

Smart reverse osmosis systems are designed for multi-stage purification of tap water from 99.98% of pollutants while increasing the pH of purified water and producing living water with minus ORP.

BENEFITS

- Primary purification from bacteria using an eco-glycine cartridge.
- Post-filter Vital Block - lowers the ORP of water to minus values.
- Increased membrane service due to the use of Vital Mix technology in prefiltration.
- The whole system is placed in a stylish metal case.

Code	Quantity of stage	Type of membrane	Quantity of stage	Type of faucet	Tank	Pump
RO 5-50 SMB-U	6	100G	1	Single	+	-
RO 6-50 SMB-U	7	100G	1	Twin	+	-
RO 7-50 SMB-U	8	100G	1	Twin	+	-
RO 5-50 SMBP-U	6	100G	1	Single	+	+
RO 6-50 SMBP-U	7	100G	1	Twin	+	+
RO 7-50 SMBP-U	8	100G	1	Twin	+	+

COUNTER TOP REVERSE OSMOSIS SYSTEM STANDART (BOX TYPE)

The reverse osmosis system is designed for multi-stage post-cleaning of tap water from harmful impurities and contaminants to human health. Improves the taste and smell of water.

BENEFITS

- The filter housings are made of European plastic of the highest quality.
- The Vontron Membrane is the leader among reverse osmosis membranes
- Automated control of tightness of joints
- Reduced discharge of water into the drainage

Code	Quantity of stage	Type of membrane	Quantity of stage	Type of faucet	Tank	Pump
RO 5-50 SB-U	5	75G	1	Single	+	-
RO 6-50 SB-U	6	75G	1	Twin	+	-
RO 7-50 SB-U	7	75G	1	Twin	+	-
RO 5-50 SBP-U	5	75G	1	Single	+	+
RO 6-50 SBP-U	6	75G	1	Twin	+	+
RO 7-50 SBP-U	7	75G	1	Twin	+	+
RO 8-50 SBP-U	8	75G	3	Single	-	+

COUNTER TOP SMART REVERSE OSMOSIS SYSTEM (BOX TYPE)

Smart reverse osmosis systems are designed for multi-stage purification of tap water from 99.98% of pollutants while increasing the pH of purified water and producing living water with minus ORP.

BENEFITS

- The filter housings are made of European plastic of the highest quality.
- The Vontron Membrane is the leader among reverse osmosis membranes
- Automated control of tightness of joints
- Reduced discharge of water into the drainage

Code	Quantity of stage	Type of membrane	Quantity of stage	Type of faucet	Tank	Pump
RO 5-50 SMB-U	6	100G	1	Single	+	-
RO 6-50 SMB-U	7	100G	1	Twin	+	-
RO 7-50 SMB-U	8	100G	1	Twin	+	-
RO 5-50 SMBP-U	6	100G	1	Single	+	+
RO 6-50 SMBP-U	7	100G	1	Twin	+	+
RO 7-50 SMBP-U	8	100G	1	Twin	+	+

WATER PURIFICATION SYSTEMS FOR COFFEE MACHINES

This is a unique offer for true professionals and connoisseurs of coffee. The filter is designed taking into account the world's «coffee» standards and allows you to get water that perfectly reveals the unique taste of coffee.

Using a multi-stage water purification technology ensures the availability of tasty water for drinking and making coffee, and also guarantees the protection of the coffee machine from scale and other contaminants.

BENEFITS

- Preparation of water, which most fully reveals the taste and aroma of coffee beans.
- Balanced mineral composition of water.
- Absence of scale on heating elements and deposits on the details of coffee machines.
- Purification of water by 99.8% from any impurities, bacteria and viruses by means of a membrane.

Code	Quantity of stage	Type of membrane	Quantity of stage	Type of faucet	Tank	Pump
CO RO 8-50	8	100G	3	Single	-	+
CO RO 9-50	9	100G	3	Single	-	+

WATER PURIFICATION SYSTEMS FOR RESTAURANTS

Compact high-performance reverse osmosis filter. It allows you to get clean, safe water for drinking and cooking, as well as water for ice makers.

BENEFITS

- Purification of water by 99.8% of all impurities, including bacteria and viruses, using membranes.
- Original compact metal case
- Built-in indicators for cartridge replacement and filter control.
- Works without storage tank

Code	Quantity of stage	Type of membrane	Quantity of stage	Type of faucet	Tank	Pump
RE RO 8-50	8	100G	3	Single	-	+
RE RO 9-50	9	100G	3	Single	-	+

WATER PURIFIERS FOR HOTELS

The purifiers are equipped with the newest water purification systems based on reverse osmosis and ultrafiltration. The purifiers have the function of heating and cooling water. Thanks to the multi-level filtration, organic and chlorine compounds, color, flavors and smells will be removed, the water will become soft, all viruses and bacteria will be disinfected by disinfection.

BENEFITS

- The whole system is placed in a stylish metal case.
- Membrane Vontron is the leader among the reverse osmosis membranes.
- Automated control of tightness of joints.
- Reduced discharge of water into the drainage.

Code	Quantity of stage	Type of membrane	Quantity of stage	Function	Tank	Pump
H RO 8-50	8	100G	3	Cooling and heating	-	+
H VITAL	4	Ultra	-	Cooling and heating	-	+

WATER PURIFIERS FOR SPORT CENTERS

The purifiers are equipped with the latest systems of post-treatment of water based on reverse ultrafiltration. The purifiers have the function of heating and cooling water. Thanks to the use of Vital Mix technology, water after preparation is ideal for athletes.

BENEFITS

- Primary purification from bacteria using an eco-glycine cartridge.
- Post-filter Vital Block - lowers the ORP of water to minus values.
- Increased membrane service due to the use of Vital Mix technology in prefiltration.
- The whole system is placed in a stylish metal case.

Code	Quantity of stage	Type of membrane	Quantity of stage	Function	Tank	Pump
H VITAL	4	Ultra	-	Cooling and heating	-	+

WATER PURIFIERS FOR CLINICS AND HOSPITALS

The purifiers are equipped with the latest systems of post-treatment of water based on ultrafiltration. The purifiers have the function of heating and cooling water. Thanks to the use of Vital Mix technology, water after preparation is ideal for treating and preventing various types of diseases.

BENEFITS

- The whole system is placed in a stylish metal case.
- Membrane Vontron is the leader among the reverse osmosis membranes.
- Automated control of tightness of joints.
- Reduced discharge of water into the drainage.

Code	Quantity of stage	Type of membrane	Quantity of stage	Type of faucet	Tank	Pump
C VITAL B	4	Ultra	-	Single	-	-
C VITAL	4	Ultra	-	Inbuilt	-	+

WATER PURIFIERS FOR SPA CENTERS

Smart reverse osmosis systems are designed for multi-stage purification of tap water from 99.98% of pollutants while increasing the pH of purified water and producing living water with minus ORP.

BENEFITS

- Primary purification from bacteria using an eco-glycine cartridge.
- Post-filter Vital Block - lowers the ORP of water to minus values.
- Increased membrane service due to the use of Vital Mix technology in prefiltration.
- The whole system is placed in a stylish metal case.

Code	Quantity of stage	Type of membrane	Quantity of stage	Type of faucet	Tank	Pump
SP VITAL B	4	Ultra	-	Single	-	+
SP VITAL	4	Ultra	-	Inbuilt	-	+

PRODUCT BENEFITS

Metal stylish case

The system that notifies about the replacement of cartridges

Sensors for notification of leaks and fullness of the storage tank

TDS cleaning quality control and pH indicator

Use of the unique patented filtering load Vital Mix

Automated control of tightness of joints
